**CITY OF BALTIMORE**

SHEILA DIXON, Mayor

**HEALTH DEPARTMENT**

Olivia Farrow, Esq., RS, Acting Commissioner  
1001 E. Fayette St.  
Baltimore, MD 21202

---

November 20, 2009

Dear Stadium Place Residents,

As you know, the water systems at Stadium Place have been treated to address the presence of Legionella, the bacterium that causes Legionnaire's disease. At this time, **the water restrictions outlined in the November 10<sup>th</sup> letter to residents are lifted**, and residents can begin normal use of the hot and cold water in their apartment. Until further notification, residents may:

- ✓ Take showers or baths without restrictions.
- ✓ Wash dishes without restrictions.
- ✓ Cook with the cold water without restrictions.
- ✓ Consume the cold water without restrictions.

It is important to remember to always get your drinking water and cooking water from the cold water side of the faucet.

If you experience symptoms of pneumonia, such as fever, cough, or shortness of breath, please contact your health care provider and inform him or her that you live in a location where some residents have been diagnosed with Legionnaire's Disease.

If you have any questions or concerns, contact the Baltimore City Health Department at 410-396-4436 during normal business hours, or "311" after hours and on weekends.

Thank you for your patience and cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "O Farrow", written in a cursive style.

Olivia Farrow  
Interim Commissioner
